---

In 1988 the Williamsburg-James City County Public Schools entered into a contract with BCM Potomac, Inc. of Vienna, Virginia, and accredited asbestos engineering firm, to thoroughly examine the facilities for the presence of friable (easily crumbled by hand) and non-friable asbestos.

The BCM investigation noted that the asbestos posed no immediate threat and the report did not recommend removal.

Since then, inspections and removal have taken place; all known asbestos has been removed. New facilities, since 1988, are built asbestos free.

The remaining asbestos (floor tile at Student Services) continues to be monitored and action will be taken if conditions change.

If there are any questions, please call your school principal or Alan Robertson, Facilities Manager, at 757-565-3838.

Detailed site information is below.

C B Baker Elementary	Built asbestos free
DJ Montague Elementary	Built asbestos free
James River Elementary	Built asbestos free.
Matthew Whaley Elementary	Asbestos free. Asbestos has been abated.
Norge Elementary	Asbestos free. Asbestos has been abated.
Matoaka Elementary	Built asbestos free.
Rawls Byrd Elementary	Asbestos free. Asbestos has been abated.
Stonehouse Elementary	Built asbestos free.
J Blaine Blayton	Built asbestos free
Berkeley Middle	Asbestos free. Asbestos has been abated.
James Blair Middle (ALL/Annex)	Asbestos free. Asbestos has been abated.
Lois S Hornsby	Built asbestos free
Toano Middle	Built asbestos free.
Jamestown High	Built asbestos free.
Lafayette High	Asbestos free. Asbestos has been abated.
Warhill High	Built asbestos free.
Central Office	Asbestos free. Asbestos has been abated.
Student Services (rented facility)	The VCT floor tile is assumed asbestos containing material. The floor tile is maintained under the O&M procedures.
Operations	Built asbestos free.
