The WJCC Adult Education Program is able to assist you and your company in developing and implementing a cost effective educational program to fit your individual needs.

**We will:**

- conduct needs assessments to determine the skill and knowledge levels of your employees
- design customized programs to respond to the identified needs

**Managers in other companies where Workforce Programs have been implemented have observed the following benefits to their companies:**

- Improved safety
- Higher productivity
- Improved product quality
- More effective communication
- Increased loyalty to the company
- Improved interpersonal skills of workers
- Greater willingness of employees to take initiative & responsibility
