

Setting Objectives & Providing Feedback

Objective: To Demonstrate how to set a student learning goal from a general teacher objective.

Activity Materials:

- Pedometers
- Stop watch
- K-W-M Chart
- Pencils
- Scrap paper

Directions:

1. Place students in groups of 4
2. Do section 1 of chart
3. Walk for two minutes

Return to group and get a statistical mean score

4. Do section 2 of chart
5. Walk for two minutes

Return to group and get a statistical mean score

6. Complete section 3
7. Write a personal goal
8. Walk for two minutes

Return to group and get a statistical mean score. Divide the group into pairs. Discuss your findings. Discuss your goal.

Questions:

How will I encourage students to personalize objectives?

What will I do to help students that are not meeting objectives?

Distribute Feedback rubric. Give Feedback to your partner.

Questions:

What will I do to ensure that students understand the rubric?

How will I engage students in the feedback process?

What will I do to help students who are not responding well to feedback?
